LENS SEGMENTATION

AN EXCEPTIONAL HIGH CONTRAST FILTER

To see colors like never before, you need to test colors like never before. Which is why Bollé used artificial intelligence to evaluate over 20 million color enhancement possibilities. In the end, only one formula provided an uncimparable color experience and it's so unique, it is patented. It's called Volt+ and it now establishes a whole new standard for high contrats lenses.

HOLMAN FLOATABLE 😣

Black Red Matte Offshore Blue Polarized

Combining sports design and a lifestyle shape, HOLMAN is a great choice for an active lifestyle. Lightweight and flexible TR90 nylon delivers great comfort and fit. Now available with floating technology, HOLMAN FLOATABLE is your best ally for water-based activities.

NEVER LOSE IT AGAIN

Never lose your sunglasses again: Bollé brings new floating technology to its outdoor range. Derived from ones of your most popular lifestyle models. BRECKEN & HOLMAN have been paired with innovative floating features for those not afraid to get wet. Designed to stay affoat whether you are in the sea, on a lake, or in a pool, you'll never lose your shades again with this loatable BRECKEN & HOMAN version. Air bubbles inside the temples for BRECKEN, or full temple construction in buoyancy material for HOLMAN, both styles come standardized with Bollé's first class HD Polarized lenses. Key features also include an oleo/hydrophobic coating to keep water drops away, and an anti-reflective treatment efficiently blocking the sun's glare.
