ABOUT US

Future Safety has been a leader in the industry for over 25 years, with over forty years of combined personnel experience. The company was formed in 1992 to design, and manufacture specialist PPE for a variety of industries. The company now specialises in manufacturing high performance helmets for Emergency services, Military, Police, Marine, Sports whilst still serving its original markets of industrial, mining and forestry.

For over 25 years Future Safety has specialised in designing, developing and manufacturing our own range of innovative products. At Future Safety Ltd, we manufacture unique products that not only offer high levels of protection but overcome problems experienced by our customers in their day to day working environments.

We achieve this by working closely with our customers and listening to them.

All our products are moulded using Future Safety moulding tools in the U.K or with our business partners in Italy.

We manufacture all our products at our ISO9001 approved production facility in Saddleworth near Manchester. This enables us to be flexible and adapt to the requirements of the customers whilst keeping a strict control on quality.

Future Safety have been awarded DTi Smart Awards for Innovative Products and North West Business Award for small Family Business.

We are here to support you.

Options

TACTICAL/POLICE/MILITARY

Tactical/Police/Military Helmet can be used for a variety of operations including maritime boarding, method of entry, protestor removal, CBRN, rope access and search teams.

RECOVERY

The Recovery Helmet is designed for use on car transporters, car recovery and highway traffic.

FORESTRY

The Forestry Helmet is fitted with a Hellberg stainless steel mesh visor to standard EN1731 (clear visor option is also available). In addition, this helmet can also be fitted with Sordin or Peltor ear defenders.

TYPHOON RESCUE

The Manta 4 Rescue Helmet can be upgraded to the Typhoon Rescue Helmet to include front shroud, go pro torch and tactical side rails. An external full or half clear visor can also be fitted as well as a full Velcro kit. The helmet is designed for use in extreme weather conditions.

HOT CUTTING

The Hot Cutting Helmet is fitted with an 8" shade 5 tri-acetate visor for thermic lance hot cutting.

MARINE SAR & PILOTS

This helmet can be used for maritime operations and marine pilots. The Manta helmet is a multi-role helmet allowing it to be used in various marine environments.

FIRE RESCUE

The Fire & Rescue Helmet can be used for a variety of operations including swift water, boat operations, USAR, wildland fire fighting, animal rescue, road traffic incidents, confined spaces and rope access.

TORCH OPTIONS

A variety of torches can be added including but not limited to Peli and Petzl. Three options available for mounting torches to helmet: - **Option 1** - Self adhesive pad mounted to front of helmet **Option 2** - Mounted bracket to side of helmet **Option 3** - Additional clips fitted to side of helmet to allow user to attach elasticated headband torch.

AMBULANCE

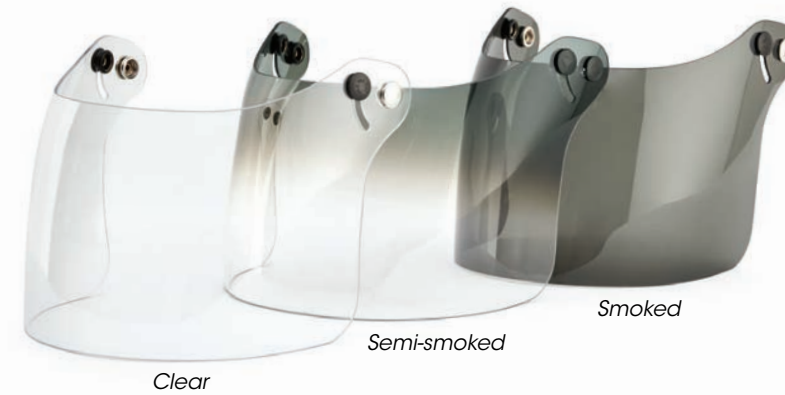

The Ambulance Helmet is a lightweight helmet weighing only 670 grammes and is designed for paramedic rescue ensuring the user is comfortable wearing the helmet for lengthy periods of time.

Accessories

MARINE VISORS

INTEGRAL VISORS

VENT COVERS & COLOUR OPTIONS

- Orange
- Black
- Green
- Red
- Navy Blue
- Yellow
- Glow in the dark

We also have interchangeable coloured vent covers that can be used to identify specific roles within operations. We can add vinyl stickers to the vent covers denoting role or rank in an organisation. Should the user change roles, the vent covers are then replaced with the new role/rank, saving the user having to buy a new helmet.

Branding

We pride ourselves on the branding we offer to our customers, enabling helmets to become personalised to organisations, people, skills and roles. This is key in operations where multi organisations are working together as it allows immediate identification of people's skill sets and roles.

Company logos and branding can be added to the helmets as well as wording such as job titles.
